OUR CYCLE ROUTE NO. 8

1907-08 Series

Philadelphia to Valley Forge—A Path Through History in a Historical Section.

On the last Sunday we went in from downtown by the Montgomery plan, as we try the Lancer Plan this time for a change. You must soon to Valley Forge from our house, as it is only a short distance from the city limits. Valley Forge was the headquarters of the Continental Army during the Revolutionary War. It is a beautiful place and well worth a visit.

The station in those days was the capital of the state, and the town was a center of trade. The town had a population of about 1,000 people. The present condition of the station is much the same as it was in those days. In fact, it is the same as it was in those days.

TWO ROADS TO VALLEY FORGE

As you pass through Philadelphia, notice the road leading to Valley Forge. This road was used by the Continental Army during the Revolutionary War. It is a beautiful place and well worth a visit.

The town had a population of about 1,000 people. The present condition of the station is much the same as it was in those days. In fact, it is the same as it was in those days.
