**THE PHILADELPHIA INQUIRER—SUNDAY MORNING, JULY 4, 1897.**

**National Meet Gossip**

After the wonderful success of the Philadelphia National Meet, it is expected that the next annual meet of the League of American Wheelmen will be held in Philadelphia during the first week of August.

No one is better qualified to speak authoritatively on matters connected with the League of American Wheelmen than Albert J. Haggart, its secretary, and a prominent League officer, Mr. Haggart, in speaking of the coming national meet, had the following to say: From the point of view it looks as if every member must meet the League and its Appendices, and that all are interested in the formation of a large regatta, which will be the grand feature of the meet. Mr. Haggart said that it would be a great pleasure to see all the members at the meet, and he would do his best to accommodate them. He said that the meet would be a great success and that it would be enjoyed by all.

**A Bit of Gossip**

 Everyone who rides a bicycle is a mark for the bicycle, and in many cases doing business in that line. A rider gives it more respect and consideration than a car. It is the lighter way of getting about. A bicycle is a great deal more comfortable and easier to use than a car. It is a great deal easier to ride a bicycle than to ride a car. A bicycle rider is a mark for the bicycle, and in many cases doing business in that line. A rider gives it more respect and consideration than a car. It is the lighter way of getting about.
